Council Member Gruber stated his understanding of the contract and how it related to identifying houses within Aurora that had lead in the pipes from the service line to the house. He referenced those who received a notice in that regard but ignored it and asked if the City has taken further action in terms of notice.

Marena Lertch, Manager Water Service Operations, Aurora Water, answered affirmatively and listed the various methods of contact with those who have been positively identified as having lead piping and who continued to not accept mitigation.

Council Member Gruber asked if lead lined pipes were harmful to those living in the household. Ms. Lertch answered affirmatively. Council Member Gruber asked if the City should allow that to stand considering it was dangerous to allow children to be in homes with confirmed lead pipes.

Jim Twombly, City Manager, stated the issue was whether there was lead in the water.

Marshall Brown, Director, Aurora Water, stated the water was safe and the concern was that the lead in the pipes could seep into the water and cause contamination. He clarified this was a proactive, second layer of protection for the public, noting there was not a lead risk to the residents of Aurora.

Council Member Berzins asked if this related to houses built before 1960 anywhere in the City. Mr. Brown answered no, noting they were isolated to an area of Original Aurora in Ward I. Council Member Murillo asked staff to speak to the changes that caused the additional expense.

Karen Hancock, Planning Supervisor, Planning & Development Services, did so, noting there have been issues that have not worked for homebuilders including process.

Council Member Bergan noted she was the Planning & Economic Development Committee Chair, and they have been moving the process forward faster but slowed it down recently due to with inconsistencies in former and newly proposed code. She stated there was an extra workload that did not just relate to staff time and asked Ms. Hancock to speak to that. Ms. Hancock did so, noting it was determined that each draft cost approximately $25k.

Council Member Murillo asked staff to clarify why the small lots have been an issue.

George Adams, Planning & Development Services, did so.

Council Member Murillo asked if it was correct that part of the small lot issue related to the industry market direction of building homes but also to allowing a lower price point for less lot size. Mr. Adams agreed smaller lots resulted in higher density and lower cost factors.

12. **PUBLIC HEARING WITHOUT RELATED ORDINANCE**

♦ The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.
Mayor LeGare opened the public hearing on the item.

Sarah Wieder, Senior Planner, Planning and Development Services, provided a brief summary of the item, noting it related to an appeal of the Planning Commission decision on the American Legion Post 23 building.

Douglas Wooddell, Post 23 Commander, spoke in support of the item, discussed the building design and noted the appeal was filed because the Planning Commission initially approved the item.

Julie Wooddell, American Legion, discussed the Legion's community support and stated her support of the item.

Council Member Johnston asked what the next option would be if the Planning Commission appeal was not granted. Ms. Wooddell stated they would go before the Post and Auxiliary members to figure out what to do next on the land.

Council Member Bergan pointed out the Planning Commission denied the item due to incompatibility with City design standards and asked staff if there were any options within the City to help the applicant upgrade from the current design.

Jason Batchelor, Deputy City Manager, answered no, noting there was not an existing program to do so but staff could have those discussions at Council's direction.

Council Member Bergan referenced Urban Renewal and noted changes were proposed for that program and suggested this might qualify.

Mr. Batchelor agreed it was probably not eligible because it was a non-profit but reiterated staff would have those discussions at Council's direction.

Ms. Wooddell stated modular homes were not the same as mobile homes and discussed the difference.

Council Member Richardson asked Council Member Johnston's opinion on the item considering it was in her Ward. Council Member Johnston referenced her support for the appeal of the PATH Program and stated her support of this item as well due to the great work the applicant was doing in the community.

Council Member Berzins asked if any fundraisers have been considered. Mr. Wooddell stated three raffles and fundraisers have been done in the last year.

Council Member Bergan stated the footprint was reduced considerably and asked if there was a subsequent reduction in the cost of the building. Mr. Wooddell stated it would not reduce it enough to be affordable. Council Member Bergan asked if the modular configuration could be changed to have a pitched roof. Mr. Wooddell confirmed the roof was pitched.

Council Member Gruber stated the applicant did not have any plans to replace the modular building in the future as it would be a permanent structure.

The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.
Mr. Wooddell concurred.

Council Member Gruber asked if there was an agreement for the American Legion to provide a visitor center at the Freedom Memorial. Mr. Wooddell answered affirmatively. Council Member Gruber asked if the snow removal issues raised by the neighbors have been resolved. Mr. Wooddell discussed his attempts at doing so to no avail.

Council Member Watson pointed out the applicant has reduced the size of the building significantly and asked if it suited the applicant’s original needs. Mr. Wooddell answered affirmatively. Council Member Watson asked Mr. Wooddell to speak to the access road concerns. Mr. Wooddell did so.

Council Member Bergan asked staff to speak to the construction of the Beck Recreation Center and Buckley warehouses. Ms. Wieder did so, stating the Beck Recreation Center was a brick building and the warehouses were metal buildings with a stucco material overlay. Council Member Bergan asked if it was staff’s opinion that those facilities were more attractive that the proposed building. Ms. Wieder stated higher quality designs have been encouraged and been made a priority in recent years. She stated staff has not approved a modular building for a permanent structure with the exception of schools. Council Member Bergan asked if there was anything that could be done to the modular building that would allow it to better line up with the new standards. Ms. Wieder discussed the various elevation concerns that did not meet code requirements.

Council Member Johnston noted this was a non-profit organization and asked if there has been another case where a non-profit organization submitted plans for a modular building. Ms. Wieder stated not that she was aware of, noting some have proposed metal buildings however. Council Member Johnston asked if those non-profits were churches. Ms. Wieder stated she could not think of any non-profits that proposed metal buildings at this time but recalled there were some types of industrial businesses that wanted to relocate to a new area in an industrial area.

Council Member Watson stated there was a 50 percent ownership between access roads and asked if there has been a clarification with access. Ms. Wieder agreed the subdivision plat did show 50-50 ownership of the access road, noting it was staff’s opinion that it should be the access road but noted the agreement between the two parties should be a private matter.

Council Member Gruber asked if the applicant was aware that there was an air easement on the land that prevented the size of the building when they purchased it. Mr. Wooddell answered no, noting he was not the Commander at the time.

Ms. Wieder clarified the Buckley Air Force Base Crash Zone was disclosed at the very beginning of the process, noting the first site plan did comply with that.

Council Member Gruber stated the vision was for the building adjacent to the Freedom Memorial to be built and the sale of the Dayton building would provide enough funds to purchase the property and build the building.

Mr. Wooddell concurred.

Council Member Bergan referenced the location and asked if RVs or trucks were located on the west side of the site. Ms. Wieder answered affirmatively. Council Member Bergan asked if the warehouses were to the south. Ms. Wieder answered affirmatively. Council Member Bergan asked if there were any adjacent residential development. Ms. Wieder answered no.

Mayor LeGare referenced the backup packet artist rendering and asked if that was what the modular would look like. Ms. Wieder referenced p. 474, noting that was the original site

The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.
plan application that was approved by the Planning Commission, p. 476 was the new renderings of the modular unit and p. 477 were of the modular units without the enhancements.

Council Member Bergan asked if the building would have a sloped roof. Ms. Wieder stated it was a gently sloped roof and not highly pitched.

Mr. Wooddell stated the pitch was ¼" to the foot.

Council Member Bergan suggested enhancements could be made without extravagant cost.

Mayor LeGare stated that was not what was before Council at this time.

Mayor LeGare closed the public hearing on the item.

Motion by Johnston, second by Hiltz, to approve item 12a.

Council Member Gruber recused himself as a previous American Legion member.

Council Member Watson stated he would not support the item because the Planning Commission made the decision because there was nothing similar to the building in the area.

Council Member Hiltz stated she would support the item and wished the applicant the best of luck.

Voting Nay: Bergan, Roth, Watson

Patricia Hayes stated her support of the item and discussed her personal experience with Aurora's Animal Control laws that resulted in the death of her dog.

Council Member Richardson asked staff to speak to the ordinance as it related to appeals, particularly once an animal has been surrendered and killed.

Julie Heckman, Client Manager, City Attorney, did so, noting there was an expedited hearing if the animal was impounded.

Council Member Richardson stated a pet owner could not file an appeal without this ordinance even if their dog was dead.

Ms. Heckman agreed that was the law in Colorado.

Council Member Gruber addressed some of the policies that went into place recently and asked if the seven day stay was free to the dog owner.

Malcomb Hankins, Neighborhood Services, answered affirmatively, noting that has been noted in the policies.

Council Member Gruber referenced the policies related to notifying the owners of their right to appeal and asked if that was handed out immediately to the owners. Mr. Hankins answered affirmatively. Council Member Gruber asked if the ordinance would replicate City policy. Mr. Hankins answered affirmatively, noting it would on those two points. Council Member Gruber referenced the backup material related to letters from CEOs of the Dumb Friends League and the Human Societies of Boulder Valley and Pikes Peak. He shared his personal experience with a dog attack and noted his opinion that the judge determined if a dog was vicious and then the dog owner could appeal. He stated his belief that the City ordinance covered that and he did not see the need for it to be codified.

Council Member Richardson asked staff if the policies were put in place as a result of what happened recently to the dog, Blue. Mr. Hankins answered no. Council Member Richardson asked where the policies were kept. Mr. Hankins stated it the City's internal offices. Council Member Richardson stated City Council made policy and staff took the legislation and developed policies. He contended these current policies were purposefully done to sabotage the ordinance.

Jim Twombly, City Manager, disagreed.

Council Member Richardson stated he expressed his desire to Mr. Twombly to work with staff on this issue and he received the typical bureaucratic response.

Motion by Richardson, second by Hiltz, to introduce item 13a.
