12. PUBLIC HEARING WITHOUT RELATED ORDINANCE

a. R2019-18
PUBLIC HEARING and Consideration OF A HEIGHT WAIVER for a 110' Clock Tower at the Aurora Highlands in the e-470 Medium Density Residential Sub-Area. STAFF SOURCE: Deborah Bickmire, Planner II, Planning & Development Services

Mayor LeGare opened the public hearing on the item.

Deborah Bickmire, Planner II, Planning & Development Services, provided a brief summary of the item.

Shawn Malone, Norris Design, representing the applicant, gave a presentation on the item.

Margaret Sobey, Murphy Creek, stated her opposition to the item, noting there would be a negative financial impact to the metro district thereby impacting those living there in the future.

Ms. Bickmire noted staff requested the use of stealth tower capabilities within the tower which meant collocating or designing the tower to house antennas inside the structure, however the applicant stated the structure was not designed to accommodate the use which led to the determination that antennas could not be mounted on the exterior.

Mayor LeGare closed the public hearing on the item.

Motion by Berzins, second by Bergan, to approve item 12a.

The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.
Council Member Gruber pointed out that an E-470 neighborhood organization of approximately 10k people was mentioned in relation to this item. He noted he lived in that area as did several council members. He stated neither his HOA nor metro district was asked about this item, therefore he did not agree that the E-470 neighborhood group represented those who lived in the area.

Mayor LeGare called a recess for disruptive behavior to allow the speaker to desist and subsequently reconvened the meeting.

Council Member Johnston agreed Ms. Sobey was speaking to a larger communication issue related to those moving into a metro district being made aware of any hidden costs related to being a part of a metro district. She noted this was an ongoing concern that needed to be addressed. She stated her support of a more iconic entry into Aurora than what existed currently and added that her support also related to staff's recommendation, the Planning Commission's unanimous support, and the fact that no other neighbors would be obstructed.

Council Member Murillo stated her appreciation for the public comment. She expressed concerns related to metro districts and the need to discuss and be aware of upfront and long term costs of development. She noted it was always a concern in the back of her mind of how that was passed along to residents. She stated affordability has been discussed and suggested the Aurora Highlands was a luxury-type product, noting she would hate to see some of the costs become a barrier in the future should City Council ever decide to include affordability in housing.

Council Member Richardson expressed concerns that metro districts were being negatively portrayed. He discussed the positive outcome of the Heather Ridge community metro district.

Council Member Hiltz echoed the concerns raised related to shifting the cost of affordability. She agreed metro districts were needed to incentivize developers to build where they ordinarily would not by providing infrastructure, however, she stated she did not see building a tower as a landmark was the same. She expressed concerns related to other needs that might arise down the road that could not be realized because of this cost.

Council Member Bergan discussed metro districts from a funding perspective. She agreed Council Member Johnston made a good point on disclosure, noting the need to highlight and bold some of the language so that it was transparent for homebuyers was discussed by the Management & Finance Committee. (M&F)

Council Member Gruber concurred and further discussed how the item was addressed in the M&F Committee meeting conversations.

Mayor LeGare stated his support of the item, noting his appreciation of the education and communication issues involved for those purchasing a home in a metro district. He stated his belief that the waiver added an iconic feature to the neighborhood and doing so would make it a central focus point for the entire neighborhood. He stated his understanding that the Aurora Highlands would have everything from affordable housing to million dollar homes therefore he supported the height waiver.

Council Member Lawson stated her support of the item and raised the topic of the car wash item that came before City Council for an iconic sign and how that item was debated when it was located in a densely populated area and this one item received a waiver instead.
