7. **PUBLIC INVITED TO BE HEARD (non-agenda related issues only)**

Dana Miller; Kristen Hirsch; Clare Armstrong; Alison Coombs; Linnea Reed-Ellis; Kristin Mallory-Westerberg; Bryan Lindstrom; Emily DiTommaso; Leanne Wheeler; and Jessica Campbell-Swanson, discussed the suffering and horrific conditions taking place at the GEO Detention Center in Aurora and asked the City Council to take a position to help those being detained in the center.

Ms. Miller asked those present in the audience that protested the conditions at the GEO Center and centers across the country to stand. Mayor LeGare recognized approximately 30 people standing.

Hazel Gibson; Kathryn Smith; and Kristen Seidel, who spoke on behalf of Michal Rosenoer, Executive Director, Emerge Colorado, spoke in support of and discussed Emerge Colorado’s policies and purpose of training and mentoring Democratic women who wanted to run for office.

Edith Henke, Traditions neighborhood, spoke in opposition to the massive Oil and Gas development recently approved by City Council.

Sonia Skakich-Scrima discussed the problems with the City’s Oil & Gas policies and processes.

Lea Steed and Marquia Young discussed problems in Aurora Public Schools and the need for City Council to be more involved and interested in education in Aurora.

Stephanie Mason discussed problems in Aurora Public Schools, the need for City Council to be more involved and interested in education in Aurora and the lack of redevelopment in the area of Mexico and Buckley.

Randee Webb discussed the need for transparency and accountability in government and how that was not addressed in the City’s Oil and Gas approval process.

Council Member Bergan referenced the detention center discussion and stated she appreciated comments that were made for Council to be aware of what was going on. She pointed out as mentioned during the study session, the facility was a private facility that was under federal jurisdiction and not under the City, and however, she stated she heard that there were issues and violations that to her personally have not been proven. She stated she needed to get the information and that she was willing to meet with Council Member Hiltz to get that information. She stated what she really wanted to say, and noted she was trying to remain calm, was that her mother lived under Nazi occupation and endured hardship and starvation and she was appalled that a few of the speakers equated men being held in the detention center to what happened in Nazi Germany where six million Jews were exterminated. She stated the City was not putting people in a gas chamber. She stated the

City was not performing surgical operations on children and men and women. She stated to make that comparison truly trivialized the atrocities that happened and noted that while the speakers could make a case for Council to look at the issue, it was hyperbole to make the comparison. She stated she could not believe that a Social Studies teacher with a master’s in history would have the audacity to say something that trivialized what happened in the world, and the men and women in the armed services who went to fight for the liberty of Europe. She stated in closing that she was open-minded to hear about things but noted that while some of the discussions made a person not want to be a city council person or public servant because public servants worked their butts off – at least she did and that while she tried to listen to her constituents, she stated she did not need to hear that kind of crap.

Council Member Johnston stated her understanding that Council Member Bergan was passionate about the issue. She noted it was unfair when council members had the last word so she shared her interpretation of what was stated by the speakers. She stated she heard the comparisons were made to the time before the concentration camps and that no one equated it to being exactly the same. She stated she felt it was important to state considering the speakers could not address Council Member Bergan’s comments. She addressed Ms. Mason’s comments related to the area of Mexico and Buckley and noted she shared those concerns.

Council Member Hiltz expressed appreciation to all those who spoke about the detention center. She stated she has been meeting with different stakeholders to discuss local options provided to the City Council. She stated she took the situation very seriously and noted there was a lot of nuance to it. She stated she looked forward to meeting with City Council in that regard.

Council Member Murillo referenced the comments that condemned the standards in the Geo Detention Center, noting the vision for Aurora did not include violating human rights and people’s ability to a safe and sanitary place to exist. She stated the statement related to ethical ways of existing and not policy. She pointed out there has not yet been any clarity on jurisdiction over the facility. She noted she looked forward to discussing what the City could do in terms of oversight and accountability. She agreed the City could and should be doing more to support the public school system and discussed local schools that were slated to close and other options in that regard.

Mayor LeGare opened the public hearing on the item.

Brandon Cammarata, Senior Planner, Planning & Development Services, provided a brief summary of the item, noting it related to a rezone request for .8 acres of land from Low Density Single-Family Residential District (R1) to Retail Business District (B1).

Sandy Toland spoke in opposition to the item. She discussed existing traffic at the intersection, noting the item would add to that concern.

Randee Webb spoke in opposition to the item, noting adding a business to the area would decrease property values.

*The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.*
Council Member Johnston asked when traffic impact studies were generated in the process. Mr. Cammarata stated a site plan was contingent with the rezone and with that, a traffic analysis has been done and it was evaluated as satisfactory. Council Member Johnston asked if there was an anticipated revenue stream from the proposal. Mr. Cammarata stated he did not have that evaluation.

Jason Batchelor, Deputy City Manager, stated the use was medical office which would generate some property tax but not any sales tax because medical services were not taxed.

Council Member Johnston asked the location of the closest medical facility. Mr. Cammarata stated there was a medical building to the east but he was uncertain to what extent it was being used as such.

Mayor LeGare closed the public hearing on the item.

Motion by Richardson, second by Bergan, to introduce item 11a.

Motion by Richardson, second by Lawson, to introduce item 12a.

Dave Lathers, Senior Assistant City Attorney, provided a brief summary of the item, noting it was an attempt to codify Core 4 business practices.

Council Member Lawson stated her support of the item because constituents have stated it was difficult to obtain information and was often provided at a high cost.

Council Member Gruber asked staff to speak to what difference the item would make in how CORA was currently handled.

Stephen Ruger, City Clerk, did so, noting major changes were not anticipated.

Council Member Johnston stated she reached out to her constituent who was a self-professed CORA user and he related to her that staff was accessible and that they really worked to have him narrow down the information in order to reduce the fee amount. She stated she would not support the item because her constituents have stated staff has addressed the issue without a formalizing a policy.

Council Member Richardson stated the item had provisions that would allow information to be provided to citizens with reduced fees. He stated this was a workable, viable provision for citizens and the media.
Council Member Gruber stated the City already did nearly everything in the ordinance and he did not think creating laws that were replicating what the City already did was good practice.

Council Member Hiltz pointed out it was Council’s goal to make things better for their constituents so in that vein, they needed to be mindful to not call out constituents by name.

**ORIGINAL MOTION**

Motion by Johnston, second by Lawson, to introduce item 12b.

Council Member Johnston stated she proposed a simple addition to make information available to voters for the upcoming election. She discussed the existing policy and how the item would change how information was handled.

Randee Webb; Dale Nichols; Alison Coombs; and Edith Henke, spoke in support of the item.

**MAYOR LEGARE CALLED FOR A 12-MINUTE BREAK**

Linnea Reed-Ellis; Juan Marcano; Bryan Lindstrom; Hassan Latif; and Leanne Wheeler, spoke in support of the item.

Council Member Murillo suggested the ordinance could be more robust but noted her support of the item because she agreed with the premise of the ordinance and believed the additional reporting would not be difficult.

Council Member Lawson stated her support of the item because it added transparency and expressed her hope that it would instill more confidence in public officials.

Council Member Murillo stated her support of the item, noting it was an excellent time for City Council to show where their money came from and to be able to justify it to the public.

Council Member Bergan stated there was an assertion that council members were beholden to contributors to vote a certain way and she pointed out that was not the case. She noted candidates received money from many different people and there were no strings attached. She stated the example that she received money from a developer and subsequently voted against most of his proposals.

Council Member Berzins stated her support of the item. She pointed out the information was the same whether it was reported on the 40th or 60th day.

Council Member Gruber pointed out the information was already reported and the change just determined when and how often it was reported. He related the discussion with staff at the recent Management & Finance committee (M&F) meeting where staff was asked directly if the changes could be executed right away and staff answered no.

**AMENDMENT I**

*The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.*
Motion by Gruber, second by Watson, to amend item 12b to add an effective date of January 1, 2020.

Council Member Johnston stated the answer to the question of whether staff was ready to implement any ordinance would always be no because it had not yet been implemented. She pointed out Council Member Gruber did not have a discussion with staff at the M&F meeting, but rather asked for only yes or no answers to his questions. She noted staff would do the will of the Council. She stated she was opposed to the amendment because the item had to be ready for the upcoming election. She concurred with Council Member Bergan’s comments related to strings not being attached to contributions but noted the public deserved to know what money was coming into candidate campaigns.

Council Member Lawson agreed with Council Member Johnston’s assertion that Council Member Gruber was unprofessional in his approach to asking staff questions at the M&F meeting. She asked staff if the item could be accomplished. Mr. Ruger answered affirmatively, noting staff was not ready at the moment but the changes would be accommodated should the item pass.

Council Member Gruber stated a senior leader asked hard questions, noting Mr. Ruger had stated at the M&F meeting that staff was not ready at this time and moving forward would be challenging.

Council Member Murillo stated she was hard pressed to believe staff could not make this happen.

Council Member Johnston reiterated it was inappropriate to have leading questions and not have staff feedback. She stated she met with staff and the Election Commission and the work could be done. She pointed out every ordinance required work.

Council Member Watson stated he seconded the motion so there could be discussion, noting he agree with Council Members Bergan and Johnston’s comments related to how a council member voted and contributions not being connected.
