LANE COUNTY OFFICE OF LEGAL COUNSEL
Mr. Morgan,

The City of Springfield requests that Lane County transfer 2 County owned parcels of land adjacent to the right of way of Highway 126 (I-105) near the Mohawk Interchange, to the City of Springfield. The parcels are known as Tax Lots 202 and 701 on Assessor's Tax Map 17032531.

The Tax Lots 202 and 701 contain a storm drainage channel known as the Q Street Channel which is a primary storm drainage facility for Springfield. It has been the belief of the City of Springfield that these Tax Lots were owned by the City, as the City owns the vast majority, if not all of the property on which the storm drainage channel and facilities exist and occupy. A recent request from the Springfield Utility Board for an easement for their electric and water facilities across one of the parcels led to the discovery that these parcels are County owned, and not City owned as thought.

The City has been maintaining the storm drainage channel, as well as maintaining vegetation and clean-up for the entirety of the County owned Tax Lots since the creation of the storm drainage channel, which was created in conjunction with the construction of the I-105 freeway in approximately 1960. According to deed records, the State of Oregon, by and through its State Highway Commission (now ODOT) deeded these 2 parcels to Lane County in May of 1961.

Your prompt attention to this matter is appreciated. Please note, as I'm sure you are aware of as part of the conversations, there has been recent ongoing discussions and sharing of information between City Surveyor Chris Moorhead, City Engineer Ken Vogeney, and Interim County Surveyor Jay Blomme. These folks should have all background information and copies of the relevant documents and maps, some of which are referenced above.
