LANE COUNTY OFFICE OF LEGAL COUNSEL

Revised 2/28/14
Chapter 60

60.840 Department of Health and Human Services Fees.
In order to ensure the efficiency of human services in Lane County, the Department of Health and Human Services is authorized to collect fees for services.

When the fee is listed at actual cost or acquisition cost, this is to mean the actual cost of purchasing the service or product, rounded to the nearest dollar.

The Department Director, or designated program managers within the Depart­ment have authority to waive any fee in part or in whole for good cause shown or in circumstances where it is apparent that the client could not accept the services if a fee was required. Written documentation on these extenuating circumstances are to be kept on file. Fiscal records should reflect charges as per fee schedule, with balances shown for bad debts and for fees waived. Those fees for which a sliding fee scale is appropriate, will be discounted according to the annual Service Discount Schedule approved by the United States Department of Health and Human Services, Region X.

Pursuant to the authorization of ORS 431.415 and the authority of the Lane County Home Rule Charter, the following fees shall be charged by the Department of Health and Human Services and paid to Lane County for the following services. Any fee that is designated “Actual,” or "Acquisition Cost" will be set at the beginning of each fiscal year, or as directed by the state. Lane County collects additional fees, which are not listed, for services to clients billed directly to various state agencies. These fees are set by the state agency and are not charged directly to clients. Examples of such fees are: Family Planning Expansion Project and Mental Health Residential daily rate.

1) General Fees.

Professional Services
Contracted Professional Services will be provided at cost as specified by the contract. Services shall include, but not be limited to polygraph, plethysmograph and psychiatric testing.

Research Fees
In accordance with the provisions of LM 2.163 requests for information which, in the judgment of the Department Director or designee, require research by professional or specialized staff, the actual full cost hourly rate of the researcher(s) times 2.5, plus any photocopy charges shall be charged. Charges will be computed on quarter hours. The requestor will be advised, prior to research, of the estimated cost.

2) Communicable Disease Fees. The Communicable Disease Program promotes the health of the community through communicable disease investigation, prevention, and education, and is a core function of Public Health. Fees for service are based on costs and are designed to minimize barriers and encourage utilization of services. Clients are not refused service due to inability to pay.

(6) **Community Health Centers (FQHC).** Community Health Centers provide access to primary and preventive healthcare services for medically uninsured, underserved and homeless populations in Lane County, in accordance with federal requirements under Section 330 of the Public Health Service Act. The Community Health Center has a Board approved fee schedule for all billable services. The fee schedule is established and implemented to ensure that all patients receive fair and equitable treatment for any and all services provided by the Community Health Center. The fee schedule approximates reimbursable costs for those services and is comparable to prevailing local rates. The billing for third party coverage, i.e. Medicare, Medicaid, private insurance carriers, etc., is set at the usual and customary full charge.

Patients with restricted, limited, or no third-party insurance coverage will be expected to provide appropriate information for a determination of eligibility in order to receive a sliding fee discount. Based on proof of income presented and/or social verification recorded, patients will be informed of eligibility for a sliding fee discount from the usual and customary full charge. All patients are eligible to apply for the sliding fee discount. Eligibility is based on total family size and family income using current Federal Poverty Guidelines. Eligible patients will have their covered charges discounted based on the sliding fee schedule. Patients will be required to pay a nominal fee even if they fall below 100% of the Federal Poverty Level. Patients below 100% of

No patient will be denied access to services simply due to an inability to pay for services. However patients "unwilling-to-pay," may be denied services. Willingness to pay is defined as taking appropriate steps to ensure payment for services rendered. Patients will be expected to comply with the efforts of registration staff members to ascertain the existence of any third-party insurance coverage a patient may possess, or otherwise appropriately document said patient's inability to pay for services.

The Community Health Centers establishes its fees based on a Resource-Based Relative Value (RBRVS) methodology.

The RBRVS methodology is the industry standard by which providers and payors establish, modify, and maintain provider fee schedules. The RBRVS methodology was established by Medicare, in conjunction with the American Medical Association (AMA) and the Specialty Practice Boards, in 1992.

The methodology consists of two components – relative value units (RVUs), and conversion factors. The charge for specific service is calculated as follows:

Relative Value Units (RVUs) are established annually by the AMA for every medical/surgical procedure. The unit values assigned to each service reflects the relative value of the resources required to provide that specific service in comparison to all other services. Resources consist of physician time, practice expense, and malpractice costs. For example, a procedure that has a RVU value of 2.0 would typically require twice the resources of a different procedure that has a RVU value of 1.0. The RVU values are adjusted annually by the AMA based on annual reviews and recommendations of experts in each medical specialty.

Conversion Factors are decided upon by each provider agency based on its specific cost structure. Medicare annually announces the conversion factor that it will use to calculate the amount it will pay for services. Commercial insurance payors typically use the conversion factor as the basis of negotiating with medical groups for determining contractual payment terms.
The RVUs and conversion factor are used as follows to determine the specific charges for each procedure:

Charge for a Procedure = (# of RVUs for that procedure) x (Conversion Factor)

For example, if the conversion factor chosen by a medical provider is $50.00, the charges for procedures would be calculated as follows:

Charge for Procedure A with a 1.5 RVU would be:
1.5 RVU x $50.00 Conversion Factor = $75.00 charge

Charge for Procedure B with a 2.0 RVU would be:
2.0 RVU x $50.00 Conversion Factor = $100.00 charge

The Community Health Center uses a conversion factor of $49.41.

The RVU values can be found on the Medicare web-site (July 2013):
http://www.cms.gov/Medicare/Medicare-Fee-for-ServicePayment/PhysicianFeeSched/index.html?redirect=/physicianfeesched

The CHC uses the above noted conversion factor and the then-current RVU factors to establish the fee for each specific procedure. Fees are rounded to the nearest whole dollar amount.

Community Health Fees
(a) Office Visits. Fees for Community Health Centers are determined using the conversion factor of $49.41 x RVU for each procedure as explained above.
(b) Medical Services. Fees for Community Health Centers are determined using the conversion factor of $49.41 x RVU for procedure as explained above.
(c) Immunizations – Community Health Centers; See LM 60.840(2)(c), Communicable Disease Fees
(d) Behavioral Health Services. Fees for Behavioral Health Services are determined using the conversion factor of $49.71 x RVU for each procedure as explained above.

Chapter 60

60.840 Department of Health and Human Services Fees.
In order to ensure the efficiency of human services in Lane County, the Department of Health and Human Services is authorized to collect fees for services.

When the fee is listed at actual cost or acquisition cost, this is to mean the actual cost of purchasing the service or product, rounded to the nearest dollar.

The Department Director, or designated program managers within the Department have authority to waive any fee in part or in whole for good cause shown or in circumstances where it is apparent that the client could not accept the services if a fee was required. Written documentation on these extenuating circumstances are to be kept on file. Fiscal records should reflect charges as per fee schedule, with balances shown for bad debts and for fees waived. Those fees for which a sliding fee scale is appropriate, will be discounted according to the annual Service Discount Schedule approved by the United States Department of Health and Human Services, Region X.

Pursuant to the authorization of ORS 431.415 and the authority of the Lane County Home Rule Charter, the following fees shall be charged by the Department of Health and Human Services and paid to Lane County for the following services. Any fee that is designated “Actual,” or "Acquisition Cost" will be set at the beginning of each fiscal year, or as directed by the state. Lane County collects additional fees, which are not listed, for services to clients billed directly to various state agencies. These fees are set by the state agency and are not charged directly to clients. Examples of such fees are: Family Planning Expansion Project and Mental Health Residential daily rate.

(1) General Fees.
Professional Services
Contracted Professional Services will be provided at cost as specified by the contract. Services shall include, but not be limited to polygraph, plethysmograph and psychiatric testing.

Research Fees
In accordance with the provisions of LM 2.163 requests for information which, in the judgment of the Department Director or designee, require research by professional or specialized staff, the actual full cost hourly rate of the researcher(s) times 2.5, plus any photocopy charges shall be charged. Charges will be computed on quarter hours. The requestor will be advised, prior to research, of the estimated cost.

(2) Communicable Disease Fees. The Communicable Disease Program promotes the health of the community through communicable disease investigation, prevention, and education, and is a core function of Public Health. Fees for service are based on costs and are designed to minimize barriers and encourage utilization of services. Clients are not refused service due to inability to pay.

underserved and homeless populations in Lane County, in accordance with federal requirements under Section 330 of the Public Health Service Act. The Community Health Center has a Board approved fee schedule for all billable services. The fee schedule is established and implemented to ensure that all patients receive fair and equitable treatment for any and all services provided by the Community Health Center. The fee schedule approximates reimbursable costs for those services and is comparable to prevailing local rates. The billing for third party coverage, i.e. Medicare, Medicaid, private insurance carriers, etc., is set at the usual and customary full charge.

Patients with restricted, limited, or no third-party insurance coverage will be expected to provide appropriate information for a determination of eligibility in order to receive a sliding fee discount. Based on proof of income presented and/or social verification recorded, patients will be informed of eligibility for a sliding fee discount from the usual and customary full charge. All patients are eligible to apply for the sliding fee discount. Eligibility is based on total family size and family income using current Federal Poverty Guidelines. Eligible patients will have their covered charges discounted based on the sliding fee schedule. Patients will be required to pay a nominal fee even if they fall below 100% of the Federal Poverty Level. Patients below 100% of the federal poverty level pay a minimum fee and those between 100% and 200% of the federal poverty level pay a discounted sliding fee.

No patient will be denied access to services simply due to an inability to pay for services. However patients “unwilling-to-pay,” may be denied services. Willingness to pay is defined as taking appropriate steps to ensure payment for services rendered. Patients will be expected to comply with the efforts of registration staff members to ascertain the existence of any third-party insurance coverage a patient may possess, or otherwise appropriately document said patient’s inability to pay for services.

The Community Health Centers establishes its fees based on a Resource-Based Relative Value (RBRVS) methodology.

The RBRVS methodology is the industry standard by which providers and payors establish, modify, and maintain provider fee schedules. The RBRVS methodology was established by Medicare, in conjunction with the American Medical Association (AMA) and the Specialty Practice Boards, in 1992.

The methodology consists of two components – relative value units (RVUs), and conversion factors. The charge for specific service is calculated as follows:

Relative Value Units (RVUs) are established annually by the AMA for every medical/surgical procedure. The unit values assigned to each service reflects the relative value of the resources required to provide that specific service in comparison to all other
services. Resources consist of physician time, practice expense, and malpractice costs. For example, a procedure that has a RVU value of 2.0 would typically require twice the resources of a different procedure that has a RVU value of 1.0. The RVU values are adjusted annually by the AMA based on annual reviews and recommendations of experts in each medical specialty.

Conversion Factors are decided upon by each provider agency based on its specific cost structure. Medicare annually announces the conversion factor that it will use to calculate the amount it will pay for services. Commercial insurance payors typically use the conversion factor as the basis of negotiating with medical groups for determining contractual payment terms.

The RVUs and conversion factor are used as follows to determine the specific charges for each procedure:

\[
\text{Charge for a Procedure} = (\# \text{ of RVUs for that procedure}) \times (\text{Conversion Factor})
\]

For example, if the conversion factor chosen by a medical provider is $50.00, the charges for procedures would be calculated as follows:

Charge for Procedure A with a 1.5 RVU would be:
1.5 RVU \times $50.00 \text{ Conversion Factor} = $75.00 \text{ charge}

Charge for Procedure B with a 2.0 RVU would be:
2.0 RVU \times $50.00 \text{ Conversion Factor} = $100.00 \text{ charge}

The Community Health Center uses a conversion factor of $49.41.

The RVU values can be found on the Medicare web-site (July 2013):
http://www.cms.gov/Medicare/Medicare-Fee-for-ServicePayment/PhysicianFeeSched/index.html?redirect=/physicianfeesch

The CHC uses the above noted conversion factor and the then-current RVU factors to establish the fee for each specific procedure. Fees are rounded to the nearest whole dollar amount.

Community Health Fees
(a) Office Visits. Fees for Community Health Centers are determined using the conversion factor of $49.41 \times \text{RVU} for each procedure as explained above.
(b) Medical Services. Fees for Community Health Centers are determined using the conversion factor of $49.41 \times \text{RVU} for procedure as explained above.
(c) Immunizations – Community Health Centers; See LM 60.840(2)(c), Communicable Disease Fees
(d) Behavioral Health Services. Fees for Behavioral Health Services are determined using the conversion factor of $49.71 \times \text{RVU} for each procedure as explained above.
