EXHIBIT B
FINDINGS OF FACT AND CONCLUSION OF LAW

1. The annexation of territory to the McKenzie Fire and Rescue was initiated on February 13, 2019 through a petition by the property owners of the proposed territory to be annexed, as authorized by ORS 198.857.

2. The application for annexation, cadastral and vicinity maps, and legal description indicate that the territory proposed for annexation is currently not within an existing fire district boundary.

3. On April 15, 2019, hearing notice was posted at the entrance to Harris Hall, Lane County Public Services Building and at the Vida Post Office. Additionally, notice was mailed to the petitioners and South Lane County Fire & Rescue. Legal notice was published on April 15 and April 25, 2019 in the Register Guard.

4. The public hearing required by ORS 198.800 was held on April 30, 2019.

5. The decision criteria analysis considered by the Board of County Commissioners follows:

   (1) The land is not within a district formed under the same principal Act; (ORS 198.720(2))

   Staff Finding 1: The proposal meets this criterion. The property proposed for annexation to the McKenzie Fire and Rescue District is not located within any other fire district boundaries.

   (2) The affected territory can reasonably be served or continued to be served by the facilities or services provided by the district; and (ORS 198.720(3))

   Staff Finding 2: The proposal meets this criterion. Currently, McKenzie Fire and Rescue District provides fire protection services to properties in the immediate vicinity of the subject property, including adjacent lands to the east, west and south. McKenzie Fire and Rescue Station 16-4 is located at 45625 McKenzie Highway in Vida, Oregon. The station is located less than a mile from the subject property’s access on North Gate Creek Road. The McKenzie Fire District Board of Directors approved the annexation with Resolution #10 adopted on April 12, 2018. Based on this information, staff find it reasonable that the territory can be served by the district.

   (3) No land included in the affected territory will be removed if the land is benefited; (ORS 198.805(1))

   Staff Finding 3: The proposal meets this criterion. As proposed, no land in the annexation area will be removed if the land is benefited.
The boundary change is consistent with the Lane County Rural Comprehensive Plan, other applicable refinement plans, and other adopted land use regulations or agreements. (ORS 198.850(2))

Staff Finding 4: The subject property is located within the rural unincorporated area of Lane County and is subject to the Lane County RCP. The subject property is located in the Impacted Forest Lands zone (F-2/RCP). Dwellings are conditionally allowed in this zone as provided in RCP Goal 4 and Lane Code 16.211(2)-2.4. New structures must comply with the Siting and Fire Safety Standards of OAR 660-06-029 and 660-06-035 (RCP Goal 4, Policy 8) and Lane Code 16.211(5) and (6), which implements these rules. Lane Code 16.211(6), Fire-Siting Standards for Dwellings and Structures requires the dwelling or manufactured home to be located within a rural fire protection district or must be provided with residential fire protection by contract. Alternatively, if inclusion within a fire protection district or contracting for residential fire protection is impracticable, the property owner can implement and maintain a fire protection plan that meets certain requirements.

The subject property received conditional land use approval to allow a dwelling in the F-2 zone in accordance with Lane Code 16.211(5) and (8) (the application was submitted prior to recent code updates to Lane Code Chapter 16, effective on February 14, 2019. However, the fire and siting requirements cited using updated code sections are generally the same in content as the previous code sections under which the application was approved). The dwelling was approved with LMD File No. 509-PA18-05344. As a condition of approval, the applicant must demonstrate compliance with the fire-siting standards.

Annexation to the McKenzie Fire and Rescue District will provide an essential service to the conditionally approved dwelling. This is consistent with RCP Goal 4, Policy 15(c)(4), which recognizes provision of public facilities and services intended primarily for direct services to rural residences as a characteristic of F-2 zoned lands.

No other refinement plans, adopted land use regulations, or agreements have been identified that conflict with this proposal. Based on the above information, staff find that the proposal is consistent with the Lane County RCP.

6. Based on these findings, the Board concludes that the proposed annexation is consistent with all applicable laws.
