MAINTENANCE SPECIALIST 1
MAINTENANCE SPECIALIST 2

CLASS SUMMARY: To perform a variety of maintenance and repair work essential to the functioning of large building systems to include operation, monitoring, adjustment and repair; and to perform related duties as assigned.

CLASS CHARACTERISTICS:
Maintenance Specialist 1: This is the entry level class in the Maintenance Specialist series. This class is distinguished from the Maintenance Specialist 2 by the performance of the more routine tasks and duties assigned to positions within this series. Employees at this level are not expected to perform with the same independence of direction and judgment on matters related to established procedures and guidelines, as are positions allocated to the Maintenance Specialist 2 level. Since this class is typically used as a training class, employees may have only limited work experience. Employees work under immediate supervision while learning job tasks.

Maintenance Specialist 2: This is the full journey level class within the Maintenance Specialist series. This class is distinguished from the Maintenance Specialist 1 by the assignment of the full range of duties assigned. Employees at this level receive only occasional instruction or assistance as new or unusual situations arise and they are fully aware of the operating procedures and policies within the work unit. Positions in this class are flexibly staffed and may be filled by advancement from the Maintenance Specialist 1 level.

SUPERVISION RECEIVED:
Maintenance Specialist 1
Receives supervision from assigned supervisory and management personnel.

 Maintenance Specialist 2
Receives general supervision from assigned supervisory and management personnel. May exercise direct supervision over temporary workers.

TYPICAL CLASS ESSENTIAL DUTIES: (These duties are a representative sample; position assignments may vary.)
