WHEREAS, Manatee County has broad Home Rule powers granted by the Florida Constitution and Chapter 125, Fla. Stat. to protect the public health, safety, and welfare of the citizens, residents, and businesses of Manatee County; and

WHEREAS, the Broward County Florida Grand Jury issued an interim report entitled “The Proliferation of Pain Clinics in South Florida” which established the following facts: (i) dealers and users have shifted their efforts from acquiring illegal drugs to the diversion of legal prescription drugs to illegal uses; (ii) it was recently reported that over 300 individuals had been arrested in Kentucky for dealing in prescription drugs obtained from South Florida; (iii) under Florida law, if the pain clinic is not physician-owned, then it is unregulated by any state agency; (iv) there is no requirement that owners and employees of pain management clinics undergo a criminal background check; (v) nearly all “pill mills” operate on a cash basis; and (vi) in 2008, an average of 13.5 deaths per day in Florida were attributed to prescription drug abuse; and

WHEREAS, the Manatee County Board of County Commissioners (the “Board”) has been made aware of the problem as a result of past and recent newspaper articles published describing the proliferation of pain management clinics in South Florida, and the “pipeline” trafficking of drugs from some South Florida pain clinics to users from other states such as Georgia, North Carolina, Tennessee, Kentucky, and Ohio; and

WHEREAS, the threat of illegal narcotic activity and increased crime associated with pain management clinics is significant and could undermine the economic health of Manatee County’s development and redevelopment efforts as well as the safety and well-being of its citizens, residents, and businesses; and
WHEREAS, officials with the Sheriffs' Offices in both Sarasota and Manatee Counties have also met with Drug Enforcement Agency (DEA) officials for training the local law enforcement agencies on tactics to investigate pain clinics and prescription drug abuse; and

WHEREAS, in Chapter 2009-198, Laws of Florida, the legislature recognized that pharmaceutical drug diversion hurts the State of Florida significantly in terms of lost lives, increased crime, and human misery from addiction, ballooning health care costs, and Medicare fraud; and

WHEREAS, the United States Department of Health and Human Services has released data showing prescription drug deaths are now the fourth leading cause of death in the United States; and

WHEREAS, the Florida Legislature has enacted Chapter 2010-211, Laws of Florida, that establishes a more comprehensive regulatory scheme for such pain management clinics; and

WHEREAS, it is necessary to establish a process for the registration, application, and permitting of certain pain management clinics; and

WHEREAS, the Board of County Commissioners intends to enact a permanent ordinance regulating pain management clinics; and

WHEREAS, Ch. 2011-141, Laws of Florida, was recently enacted by the State to provide a comprehensive regulatory scheme for the distribution of prescription drugs and regulating pain management clinics; and

WHEREAS, the reputation of pain management clinics suffer from the proliferation of "pill mills"; and

WHEREAS, legally prescribing controlled substances by pain management clinics is necessary for public health; and

WHEREAS, the Board believes that additional local enforcement authority is needed to supplement Chapters 2010-211 and 2011-141, Laws of Florida, in the regulation of illegitimate pain management clinics in order to protect the citizens of Manatee County; and

WHEREAS, valid patients and legitimate doctors are also victims of the current proliferation of illegal pill mill activity; and

WHEREAS, legitimate medical treatment of chronic pain is much needed and is in the best interest of the community to preserve and protect these medical services, especially in our county with an increased number of seniors suffering from painful diseases.
NOW THEREFORE, BE IT ORDAINED BY THE BOARD OF COUNTY COMMISSIONERS OF MANATEE COUNTY, FLORIDA, AS FOLLOWS:

SECTION 1: A new Article I, Chapter 2-18, of the Manatee County Code of Ordinances is hereby created and known as: the “Manatee County Pain Management Clinic Registration Ordinance” and state as follows:

Sec. 2-18-1: Authority

This ordinance is enacted pursuant to Section 125.66(3), Fla. Stat. (2009) and under the Home Rule powers as outlined in Chapter 125, Fla. Stat. providing for the public interest of the health, peace, safety, and general welfare of the citizens, residents, and businesses of Manatee County. This ordinance shall be known as the “Manatee County Pain Management Clinic Registration Ordinance.” This ordinance is the successor ordinance to Ordinance 10-73, which is now repealed.

Sec. 2-18-2: Legislative Findings of Fact

(a) The Whereas clauses are incorporated herein and represent legislative findings of the Board. The Board further finds and declares that it is in the best interests of the citizens, residents, and businesses of Manatee County to enact a permanent ordinance requiring a permitting and regulatory process for pain management clinics operating, or desiring to operate, in Manatee County.

(b) In 2009, through the enactment of Section 893.055, Fla. Stat. the Legislature directed the Department of Health to establish a Prescription Drug Monitoring Program (PDMP) to track prescriptions for controlled substances dispensed by various health practitioners. The purpose of the PDMP is to prevent the practice of “doctor shopping” wherein a person illegally obtains multiple prescriptions of a controlled substance from different doctors for the purpose of illegally reselling the controlled substance.

(c) Thirty-four (34) states have a PDMP. Florida is the largest state which did not have an operational drug monitoring program to help prevent the illegal distribution of controlled substances.

(d) During the 2009 Legislative Session, in Chapter 2009-198, Laws of Florida, the Florida Legislature recognized that pain management clinics should be registered with the Florida Department of Health, and that new regulations governing same should be promulgated by the Board of Medicine and Board of Osteopathic Medicine.

(e) Through Sections 458.309(4) or 459.005(3), Fla. Stat. (2009), the Florida Legislature authorized the Board of Medicine and Board of Osteopathic Medicine to adopt new rules setting forth standards of practice for health care practitioners who practice in privately-owned pain management clinics.

(f) During the 2011 Legislative Session, a new law enacted as Chapter 2011-141 incorporated many of the draft pain management clinic rules proposed by the State Board of Medicine.
(g) Pill Mills generate a high volume of clients and traffic and, therefore, require more stringent regulation of location and use than other medical facilities.

(h) Some pharmacies have been operating in conjunction with “pill mills”; including those that operate on a “cash only” basis and have sales of controlled substances that exceed the industry norm.

(i) “Pill mills” that illegally prescribe and dispense controlled substances for the treatment of pain, whether acute pain or chronic pain, are associated with a wide variety of adverse secondary effects including, but not limited to, personal and property crimes, public safety risks, illicit drug use and drug trafficking, undesirable and criminal behavior associated with alcohol consumption, and negative impacts on surrounding properties.

(j) According to statistics from the Centers for Disease Control and Prevention, the death rate for prescription drugs increased 84.2%, from 7.3 to 13.4 per 100,000 population from 2003 to 2009. The greatest increase in death rate was observed for the prescription drug Oxycodone (264.6%), followed by Alprazolam (233.8%), Methadone (79.2%), Hydrocodone (34.9%), and Morphine (26.2%).

(k) Manatee County Sheriff officials say crimes related to prescription pills have reached epidemic proportions, including an increase in burglaries involving medicine cabinets. There is also an increase in jail population because of more drug arrests.

Sec. 2-18-3: Intent and Purpose.

It is further the intent and purpose of this ordinance to promote the health and general welfare of the citizens, residents, and businesses of Manatee County through the analysis of impacts from pain management clinics, the effectiveness of existing and emerging regulatory efforts, and a thorough consideration of the criteria for the establishment and location of pain management clinics within Manatee County. It is the intent of this ordinance to regulate conduct and not to affect land use or activities protected by the First Amendment.
