Notice of Intent

The Department of Environmental Protection hereby provides Notice of Intent to Issue a permit for the proposed project, subject to the conditions specified in the draft permit and summarized below. The applicant, Manatee County Utilities, Evan Pilachowski, Director, 4410 66th Street West, Bradenton, Florida 34210 applied on November 9, 2021 for a permit to operate a Class V Aquifer Storage and Recharge (ASR) injection well. The project is located at the Lake Manatee ASR, 17915 Waterline Road, Bradenton, Florida 34212, in Manatee County (File No. 136590-011-016-UO/SSR, WACS ID No. 94443).

The facility will operate six non-hazardous Class V ASR injection wells B-1, B-2, B-3, B-4, B-5, B-6, and associated monitor wells C-1, D, SZMW-1, and SZMW-2 for the storage, acquisition, and emergency supply of potable water from the Manatee County Utilities Department Water Treatment Plant. The maximum injection rate for each injection well B-1, B-2, B-3, B-4, B-5, and B-6, shall be 1,400 gallons per minute and the maximum injection volume for each well B-1, B-2, B-3, B-4, B-5, and B-6, shall be 2 million gallons per day (mgd). Injection wells B-1 and B-2 are constructed with 16-inch diameter steel casings set to 399 feet below land surface (bls) and total depth of 700 feet bls. Injection wells B-3, B-4, B-5, and B-6 are constructed with a 17.4-inch diameter PVC casing set to 399 feet bls and total depths of 650, 663, 650, and 705 feet bls, respectively. Monitor wells SZMW-1 and SZMW-2 are completed in the Upper Floridan aquifer from 400 feet to 712 feet bls and from 400 feet to 452 feet bls respectively. Monitoring well C-1 is completed within the Upper Floridan aquifer from 662 feet to 672 feet bls. Monitoring well D is completed in the Intermediate Confining Unit from 115 feet to 120 feet bls. The system is designed to provide a 180-day, 10 mgd emergency water supply and a 120-day, 10 mgd operational supply. The injected water will meet all primary and secondary drinking water standards.

The Department has permitting jurisdiction under Chapter 403 of the Florida Statutes (F.S.) and the rules adopted thereunder. The project is not exempt from permitting procedures. The Department has determined that an Underground Injection Control permit is required for the proposed work.

The Department will issue the permit unless a petition for an administrative hearing is timely filed under Sections 120.569 and 120.57, F.S., before the deadline for filing a petition. On the filing of a timely and sufficient petition, this action will not be final and effective until further order of the Department. Because the administrative hearing process is designed to formulate final agency action, the hearing process may result in a modification of the agency action or even denial of the application.
