Dashboard / Power BI

- Tammy stated that our numbers are way up this month. Brooke has been digging into the numbers and the main increase is our online database usage. There is one main database, Mergent, that has been picking up.

  - Tammy stated that it is used a lot to create a business plan.
  - Christine asked how we promote the databases as she just started using them.
    - Tammy advised that we have some public classes on how to use them and what they are. Staff at the front desk and our information services team is good at promoting. It is more of a one-on-one item.
