

FIREFIGHTER PARAMEDIC I/II

DEFINITION

To respond to emergency situations related to protection of life and property by performing fire suppression, rescue, and basic/advanced life support activities; to participate in fire prevention duties including training and education; and to perform apparatus, equipment, and station maintenance.

DISTINGUISHING CHARACTERISTICS

Firefighter Paramedic I – This is the entry level class in the Firefighter Paramedic series. This classification is distinguished from the journey level by the performance of the more routine tasks and duties assigned to positions within this series. Employees at this level are not expected to perform with the same independence of direction and judgment on matters allocated to the journey level. Since this class is typically used as a training class, employees may have only limited or no directly related work experience. Employees work under general supervision while learning job tasks.

Firefighter Paramedic II – This is the journey level class within the Firefighter Paramedic series and is distinguished from the Firefighter Paramedic I level by the assignment of the full range of duties. Employees at this level receive only occasional instruction or assistance as new, unusual or unique situations arise and are fully aware of the operating procedures and policies within the work unit. Positions in this class are flexibly staffed and are normally filled by advancement from the Firefighter Paramedic I level.

SUPERVISION RECEIVED AND EXERCISED

Firefighter Paramedic I

Receives direct supervision from an assigned Fire Captain upon assignment; may receive additional technical and functional supervision from a Firefighter Paramedic II/Field Training Officer.

Firefighter Paramedic II

Receives general supervision from an assigned Fire Captain. May exercise technical and functional supervision over Firefighter Paramedic I.

EXAMPLES OF ESSENTIAL DUTIES – Duties may include, but are not limited to, the following:

Determine and provide basic and/or advanced emergency medical treatment as necessary according to established protocols using appropriate equipment and medical supplies; follow up patients through transfer of care.

Respond to emergency and non-emergency calls for service; perform fire suppression duties including laying and connecting hoses; hold and direct a variety of suppression material streams; carry and operate chemical fire extinguishers; raise and climb aerial ladders; make forcible entry into buildings and control traffic around emergency sites as necessary.

Secure fire sites to control re-starts including knocking down structural appurtenances such as walls and roofs and assisting in investigating fire cause and origin; ventilate buildings and conduct overhaul, salvage and clean up operations at site.

Operate a variety of emergency rescue tools and equipment to extricate victims from vehicles, confined spaces, trenches, collapsed buildings, or similar situations.

Respond to hazardous material incidents; mitigate situation and identify material and determine proper procedure for handling and disposal.

Participate in fire inspection of businesses and other fire prevention activities as assigned, including conducting routine patrols during declared fire season; ensure compliance with the Fire Code and identify potential fire hazards.

Participate in training activities and drills related to firefighting techniques, emergency medical care, and proper use of apparatus, equipment, and tools; maintain current knowledge of firefighting and medical response techniques and department rules and regulations; may serve as drill instructor as assigned.

Perform public education activities such as making presentations and providing demonstrations and conducting tours; participate in community events that encourage awareness of emergency services and techniques.

Drive, operate, and maintain fire trucks and other emergency vehicles; operate engine pumping equipment and apparatus.

Assist in maintaining clean and orderly conditions in and around fire station; clean and service firefighting equipment, inspect and test equipment carried on fire trucks and engines; check and ensure adequate supplies are available; perform general custodial duties as required.

Maintain appropriate records, logs, and files; prepare required reports.

Build and maintain positive working relationships with co-workers, other City employees and the public using principles of good customer service.

Perform related duties as assigned.

MINIMUM QUALIFICATIONS

Firefighter Paramedic I

Knowledge of:

Basic principles, practices, procedures, and use of firefighting and emergency apparatus, equipment, tools, devices, and facilities.

Current medical principles, practices and procedures related to basic and advanced life support emergency patient treatment and proper administration of various medications.

Ability to:

Learn and perform firefighting, emergency rescue, and medical aid duties in response to calls for service.

On a continuous basis, know and understand all aspects of the job and observe safety rules; remember how to locate and operate equipment; intermittently analyze work papers, reports and special projects; remember various rules and procedures.

On a continuous basis, sit at a desk or in a vehicle for long periods of time; walk and stand during emergency situations, including on uneven and slippery surfaces; intermittently twist to reach equipment surrounding desk; perform grasping and fine manipulation; use telephone, and write or use a keyboard to communicate through written means; wear firefighter clothing and carry equipment; lift or carry weight of 110 pounds; climb ladders and work from elevated positions.

Learn and demonstrate required mechanical skills in the operation of firefighting equipment and demonstrate physical aptitude needed in the performance of firefighting and rescue activities.

Provide basic and advanced life support emergency medical treatment in accordance with established protocols.

Learn to drive and operate fire/emergency vehicles as required.

Work assigned shift schedules; be available for call-back.

Work unusual and prolonged work schedules during emergencies, seasonally-caused circumstances in varying weather and temperature conditions.

Communicate clearly and concisely, both orally and in writing.

Establish and maintain effective working relationships with those contacted in the course of work.
